List of Contributors *xii*
Foreword *xxv*
Preface *xxvii*
Acknowledgments *xxix*

Section I Fundamental Perspectives on TADs *1*

1 **An Overview of Clinical Applications for Temporary Anchorage Devices (TADs)** *3*
Jae Hyun Park and Kyungsup Shin

2 **Biomechanical Considerations for Clear Aligners and TADs in Challenging Cases** *16*
Hu Long, Xianglong Han, Wenli Lai, and Zhihe Zhao

3 **Biomechanical Considerations for Controlling Target Tooth Movement with Mini-implants** *26*
Jung Yul Cha

4 **Biomechanical Simulations for Various Clinical Scenarios Treated with TADs** *37*
Tai-Hsien Wu and Ching-Chang Ko

5 **Clear Aligners and Extra-Alveolar Miniscrews for Complex Orthodontic Cases: An Overview of Biomechanics with Clinical Examples** *46*
Marcio R. Almeida, Lorena Karanxha, and Jae Hyun Park

6 **Histological Aspects During the Healing Process with TADs** *55*
Toru Deguchi

7 **The Effects of TADs on the Alveolar Bone** *63*
Jing Chen, Karolina Kister, and Sunil Wadhwa

8 **Mechanical Aspects of TADs** *71*
Toru Deguchi and Do-Gyoon Kim

9 **Factors Affecting the Failure of TADs and Efforts to Improve the Biomechanical Stability of TADs** *79*
Sung-Hwan Choi and Chung-Ju Hwang

10 **TADs and Successful Clinical Outcomes** *86*
Chung H. Kau and Terpsithea Christou

11 **Biomechanical Considerations of Temporary Anchorage Devices and Clear Aligners Treatment** *94*
Mario Greco, Lorena Karanxha, and Jae Hyun Park

COPYRIGHTED MATERIAL

12 **Clinical, Mechanical, and Diagnostic Indices for the Placement of TADs** *103*
Mitsuru Motoyoshi

13 **Considerations for the Placement of TADs** *109*
Alejandro A. Romero-Delmastro, Onur Kadioglu, G. Frans Currier, and Helder B. Jacob

14 **Aligners and TADs: A Hybrid Approach for Intra-arch Management** *117*
Giorgio Iodice, Vincenzo D'Antò, and Ambra Michelotti

15 **Understanding Implant Sites for TADs** *126*
Hyung Seog Yu

16 **Palatal TADs: Anatomical Considerations** *134*
Mohamed Bayome, Jae Hyun Park, and Yoon-Ah Kook

17 **Versatile Force Systems Enabled by Customized TAD-Supported Expanders** *141*
Sercan Akyalcin and Andre Weissheimer

18 **Implant Site Selection** *153*
Sebastian Baumgaertel

19 **TADs and Directly 3D-Printed Clear Aligners** *160*
Miyoung Sim, Hyun-hee Choo, and Jang-hoon Ahn

Section II Three-Dimensional Correction with TADs *175*

Anteroposterior Correction *177*

20 **Treating Skeletal Class II Hyperdivergent Patients: A Structured Decision-Making Process** *177*
Peter H. Buschang and Larry Tadlock

21 **Efficient Application of Interradicular TADs in Clear Aligner Therapy for Maxillary Dentition Sequential Distalization** *193*
Ping Liu and Rongrong Sun

22 **Class II Correction with Skeletal Anchorage and Forsus** *206*
Min-Ho Jung

23 **Distalization of Maxillary and Mandibular Molars with TADs** *218*
Jae Hyun Park, Mohamed Bayome, and Yoon-Ah Kook

24 **Mandibular Molar Distalization with Clear Aligners: Biomechanical Challenges and the Role of Temporary Skeletal Anchorage** *228*
Kyung Jae Hong, Jung Jin Park, and Jae Hyun Park

25 **Effective Treatment of Class II Malocclusion with the TAD-Supported amda®** *241*
Moschos A. Papadopoulos

26 **Control of Molar Distalization and Incisor Inclination in Class II Division 2 Malocclusion with Clear Aligners and TADs** *249*
Kiyoshi Tai, Mo Hyeon Lee, and Jae Hyun Park

27 **The Use of TADs with a Wilson Distalizing Arch** *259*
Tarek El-Bialy and Budi Kusnoto

28 **The Use of TADs to Correct Challenging Class II Sagittal Discrepancies** *266*
Goli K. Parsi and Mohamed I. Masoud

29 **Total Distalization Using TAD-Assisted Clear Aligner Therapy: A Diagnostic Digital Set-Up Approach** *281*
Kyung Jae Hong, Mo Hyeon Lee, and Jae Hyun Park

30 **Dentofacial Orthopedics for Class III Corrections with Bone-anchored Maxillary Protraction** *293*
Tung Nguyen

31 **Digitally Assisted Approach to TAD-Anchored Maxillary Protraction** *299*
Dong-Hwa Chung

32 **Protraction Headgear with Surgical Miniplates** *309*
Bong-Kuen Cha

33 **Symmetrical and Asymmetrical Class III Camouflage: TAD-Guided Molar Distalization with Aligners** *323*
Flavia Artese, José Augusto Mendes Miguel, and Tainá Corrêa Manso

Transverse Correction *335*

34 **Total Arch Distalization and Control of Transverse Discrepancy with TADs** *335*
Ju Young Lee, Hwa Sung Chae, and Young Ho Kim

35 **Reinforcing Aligner-Based Expansion with Bone-Borne Expander: A Strategic Hybrid Protocol** *345*
Hyeok Ji, Mo Hyeon Lee, Christine Hong, and Jae Hyun Park

36 **Maxillary Expansion in Skeletally Mature Patients with TADs** *362*
Won Moon

37 **Maxillary Expansion with TADs in Young Adults** *372*
Peter Ngan and Hong He

38 **Correction of Unilateral Posterior Crossbite with a Maxillary Skeletal Expander and Clear Aligners** *381*
Daniele Cantarella, Lorena Karanxha, and Jae Hyun Park

39 **TAD-assisted Naso-maxillo-pharyngeal Expansion** *391*
Kyung-A Kim, Su-Jung Kim, and Young-Guk Park

40 **Scissor Bite Correction with TADs** *406*
KyungMin Lee, Sung-Hoon Lim, Gye-Hyeong Lee, and Jae Hyun Park

Vertical Correction *419*

41 **Clinical Outcomes with TADs and Conventional Mechanics in Adult Skeletal Open Bite and Class II Patients** *419*
Toru Deguchi and Keiichiro Watanabe

42 **Clear Aligner Treatment of Gummy Smile Using TADs** *432*
Kiyoshi Tai, Jae Hyun Park, Junya Tominaga, and Jong-Moon Chae

43 **Control of Vertical Dimension and Chin Position in Class II Malocclusion with Miniscrew Implants** *441*
P. Emile Rossouw, Dimitrios Michelogiannakis, and Glen Hintz

44 **Anterior Open-Bite Correction with One Midpalatal TAD** *452*
Tae-Woo Kim

45 **Anterior Open-Bite Treatment with Clear Aligners and Miniscrews** *463*
Juan Carlos Pérez Varela and Miriam López Vila

46 **Treatment of Open Bite with TADs: The Nature of Molar Intrusion and Relapse** *475*
Masato Kaku, Kazuo Tanne, and Kotaro Tanimoto

47 **Double-Arch Intrusion: Effective Use of TADs to Correct Vertical Excess** *485*
Cheol-Ho Paik and Hwee-Ho Kim

Section III Clinical Applications of TADs *493*

48 **Three-Dimensional Application of Orthodontic Miniscrews and Their Long-Term Stability** *495*
Yoon Jeong Choi and Young-Chel Park

49 **Six Miniscrew Applications in Aligner Treatment** *502*
Chris H. Chang, Joshua S. Lin, Lexie L. Lin, and Wilbur Eugene Roberts

50 **Tweed–Merrifield Directional Force Technology with TADs** *514*
Jong-Moon Chae and Jae Hyun Park

51 **Strategic Hybrid Integration of TADs, Brackets, and Clear Aligners in Challenging Cases** *526*
Diana Girdo, Mo Hyeon Lee, and Jae Hyun Park

52 **Non-extraction Treatment of Class II Hyperdivergent Patients with Orthodontic Mini-implants** *541*
Hyo-Won Ahn and Seung-Hak Baek

53 **Clinical Application of Palatal TADs** *551*
Sung-Hoon Lim and Jae Hyun Park

54 **Maxillary Expansion and Asymmetric Distalization with Clear Aligners and TADs to Improve Adult Skeletal Class III Malocclusion** *565*
Chooryung Judi Chung, Ji-Hyun Lee, and Kyung-Ho Kim

55 **Management of Missing Teeth with C-implants** *574*
Seong-Hun Kim, Min-Ki Noh, Kyu-Rhim Chung, and Gerald Nelson

56 **Indirect Miniscrew Anchorage for Adjunctive Orthodontic Treatment: Clinical Applications and Stability** *587*
Kyung-Ho Kim, Yoon Jeong Choi, and Woowon Jang

57 **TADs for Limited Orthodontic Treatment** *596*
Masamitsu Takahashi and Satoshi Uzuka

58 **Uprighting Impacted Mandibular Second Molars with a Cantilever System Using TADs** *608*
Sang-Jin Sung

59 **Mandibular Molar Protraction with Clear Aligner Therapy** *617*
Jaesoo Kim, Jae Hyun Park, Sungsu Heo, and Jong-Moon Chae

60 **Orthodontic Treatment of TMD Patients with Posterior Intrusion Using TADs** *628*
Gye-Hyeong Lee, Sang-Mi Lee, Danal Moon, Sun Kyong Yoo, and Jae Hyun Park

61 **Insights to Extraradicular Bone Screw Applications for Challenging Malocclusions** *644*
Chris H. Chang, Joshua S. Lin, Hsin-Yin Yeh, and W. Eugene Roberts

62 **The Biomechanics of Extra-alveolar TADs in Orthodontics** *656*
Marcio Rodrigues de Almeida

63 **A New and Innovative TAD System for Improved Stability and Versatility** *666*
Carlos Villegas, Elsa Virginia Arango Pilonieta, and Flavio Uribe

64 **Palatal and Ramal Plate Applications** *680*
Yoon-Ah Kook, Jae Hyun Park, and Mohamed Bayome

65 **Miniscrews vs. Miniplates** *689*
Nour Eldin Tarraf and M. Ali Darendeliler

66 **Progress of Anchorage in Lingual Orthodontic Treatment** *701*
Hee Moon Kyung

67 **Biomechanics of Lingual Orthodontics and TADs** *709*
Ryoon-Ki Hong

68 **TADs with a Fully Customized CAD-CAM Lingual Bracket System** *724*
Toru Inami

69 **TAD-assisted Lingual Retractors** *737*
Ki-Ho Park, Hyo-Won Ahn, and Yoon-Goo Kang

70 **TADs and Invisalign: Making Difficult Movement Possible** *751*
Joorok Park and Robert L. Boyd

71 **The Use of TADs with Clear Aligners for Asymmetry Correction** *770*
William J. Kottemann

72 **Application of a Double J Retractor with Clear Aligners for Incisor Torque Control** *778*
Johnny J.L. Liaw and Jae Hyun Park

73 **Microimplant-Assisted Aligner Therapy** *787*
Ramon Mompell and S. Jay Bowman

74 **Safe and Precise TAD Placement in the Anterior Palate with Simple and Inexpensive TAD Guides** *801*
Philipp Eigenwillig, Björn Ludwig, and Axel Bumann

Section IV Esthetic Control with TADs *811*

75 Correction of Occlusal Canting with TADs *813*
Tae-Woo Kim

76 Treatment of Facial Asymmetry with Microimplants *826*
Hyo-Sang Park

77 Facial Asymmetry: Non-surgical Orthodontic Treatment Considerations *838*
Kelvin Wen-Chung Chang

78 Correction of Deep Bite and Maxillary Constriction in Class II Malocclusion with Clear Aligner Therapy *855*
Jae Hyun Park, Thy Ly, Seungmin Lee, and Danal Moon

79 Maxillary Impacted Canines Treated with TADs and Clear Aligners *869*
Letizia Perillo, Ludovica Nucci, and Vincenzo Grassia

80 The Application of TADs for Gummy Smile Correction *878*
Kee-Joon Lee

81 Application of TADs in an Adult Gummy Smile Case with Vertical Maxillary Excess *891*
Johnny J.L. Liaw

82 Facial Esthetics-Oriented Treatment Planning with Dental VTOs and TADs *905*
Sercan Akyalcin

83 Vertical and Sagittal Corrections with TADs and Clear Aligners *919*
Nan Zhou and Niansong Ye

84 Improved Facial Profile with Premolar Extraction and Molar Intrusion Using TADs and VTOs *932*
Kiyoshi Tai and Jae Hyun Park

85 Strategic Integration of Bone-Borne Expander and Clear Aligner Therapy for Class II Deepbite Treatment *942*
Christine Hong, Mo Hyeon Lee, Hyeok Ji, and Jae Hyun Park

Section V Application of TADs in Surgical Cases *953*

86 TADs vs. Orthognathic Surgery *955*
Jeong-Ho Choi

87 Advantages of Miniscrew Usage for Pre- and Post-operative Orthodontics in Skeletal Class III Malocclusion Patients *965*
Seong Sik Kim and Sung-Hun Kim

88 Orthodontic Biomechanics with Miniplates in the Surgery-first Orthognathic Approach *976*
Jorge Faber, Carolina Faber, and Patricia Valim

Section VI Complications with the Use of TADs *985*

89 Biomechanical Mistakes Related to the Use of TADs *987*
Ki Beom Kim, Guilherme Thiesen, and Michael Lee

90 Pros and Cons of Miniscrews and Miniplates for Orthodontic Treatment *1000*
Cheol-Hyun Moon

91 Orthodontic Miniscrews: The Pearls and Pitfalls of TADs *1008*
Takashi Ono

92 Success with TADs: Evidence and Experience *1015*
Melih Motro and Leslie A. Will

93 Legal Considerations When Using TADs *1024*
Laurance Jerrold and Michael Schulte

Index *1031*
